

# SCHOOL OF DESIGN

## DESIGN YOUR FUTURE

What will the future look like? Whatever you shape it to be, as the possibilities are endless with the design skills you will gain at NYP's School of Design (SDN). At our School, we will help you channel your creative talents to transform and shape the future.

SDN offers you a lively and vibrant learning environment, with experienced lecturers and practising design professionals to guide you. Besides the skills that you will learn at the School, we also have industry projects to challenge your creativity. Your learning journey will be hands-on and fast-paced. The future is what you make it to be. Choose SDN, and take your future into your own hands.

### Why Design?

- There's great demand in the creative industry for talented designers.
- You will have many opportunities to venture abroad and to work in different environments.

### Why SDN?

- SDN offers you a friendly, student-oriented environment.
- Benefit from well-established programmes that are actively supported by industry players and professional organisations.
- Our lecturers are highly qualified design professionals with extensive industry experience.
- Acquire first-hand knowledge and experience of the design process through industry projects and our industrial attachment programme.
- Gain valuable exposure to the international design scene through overseas attachment programmes and study trips.
- Enjoy good prospects for an exciting design career in the creative industries, as well as further studies, with our robust training.

### Industry-linked

We believe in offering you the best training in design. As an SDN graduate, your skills and knowledge will be well-received by the industry, including our partners like:

- ADtitude
- Asmara Lifestyle
- Borneo Motors
- Health Sciences Authority
- Kimberly-Clark
- Moove Media
- Nestlé (Singapore)

### Minimum Entry Requirements

- |   |             |
|---|-------------|
| a) English Language                     | Grade 1 - 7 |
| b) Elementary or Additional Mathematics | Grade 1 - 7 |
| c) Any three other subjects             | Grade 1 - 6 |

# DIPLOMA IN **SPACE & INTERIOR DESIGN**

In this course, you will master the entire spectrum of Space Design, ranging from exhibition to convention set-up design, retail design, furniture design, as well as interior and environment design. Study interesting subjects like Environment Design, Ergonomics, Event Concept & Design, Furniture & Fittings Design and Space Curatorship. You can also specialise in Space Planning & Design or Exhibition Design & Events Management.

With NYP's Diploma in Space & Interior Design, you will be a versatile designer in many exciting and diverse areas, including the Meetings, Incentive Travel, Conventions and Exhibitions (MICE) sector, as well as a wide range of space-related design industries.

"Studying in NYP made me question design with a sensitivity I had never before considered. It was a constant exercise in challenging commonly-held perceptions of space, from the extent of research behind a concept to the nitty gritty details of technical construction and material selection. Design was not simply aesthetic quality, but valued also for its contribution towards building spatial environments useful to people."

**Marialaura Lui**

Diploma in Space & Interior Design  
Class of 2010

Undergraduate  
National University of Singapore

### **This fits me to a T!**

This is the perfect course for you, if you are:

- Passionate about design
- Creative and like to change your surroundings for the better
- Receptive and always keen to experiment with new ideas

### **What will I learn?**

- Spatial design skills
- Communication skills
- Detailing and knowledge of materials
- Creative thinking

### **I want a great career!**

Look forward to a great design career in:

- Space and Interior Design
- Retail Display and Promotional Design
- Exhibition Design
- Stage Design
- Lighting Design
- Events Management
- Furniture Design
- Advertising
- Event Management and Design

### **Uni, here I come!**

With a Diploma in Industrial Design, you can further your studies with attractive advanced standing at local and overseas universities, including:

#### **Singapore**

- National University of Singapore
- Nanyang Technological University
- Singapore Management University
- SIM University

#### **Australia**

- Australian National University
- University of Canberra
- University of New South Wales
- Monash University
- Swinburne University of Technology
- RMIT University
- Queensland University of Technology
- Curtin University of Technology

#### **Europe**

- Chelsea College of Art & Design, London
- Central Saint Martins College of Art & Design, London
