

## Our Students' Stories

"I chose to study Diploma in Social Sciences (Social Work) in NYP because I want to help youngsters who face struggles similar to those I once had in my childhood. I came from a challenging family background and was exposed to much negative peer influences. I am thankful to have found the strength to change. I studied hard in ITE because I wanted to prove that I could succeed. At NYP, the social work course includes psychology and sociology; it has given me an understanding of human behaviour and the social work profession. I feel that it has equipped me to help others."

"I found my passion for accounting back in ITE. I worked hard so that I could further my studies in NYP. I am grateful to be selected for NYP's Diploma Plus programme, where I could do modules to qualify for the Association of Chartered Certified Accountants (ACCA). Students who are part of this program get ahead of other fresh poly graduates as we would have passed all the fundamental ACCA modules to qualify for an advanced diploma in accounting business certificate. I was thrilled to be offered a permanent position at Ernst & Young after I completed my six-month internship with them in Year 3."

"I have always been fascinated by industrial design and my vision is to create products that help to improve people's lives. I worked hard in ITE Central so that I can further my studies in NYP and obtain a Diploma in Industrial Design. I have had so many interesting and learning experiences in NYP. The lecturers and my friends here feel like family to me."
